

Greening the OR

Success Story - 1,000 Bed, Acute Care Hospital

Director of Surgical Services' Challenge

Green the operating room. Implement a systematic waste flow approach to ensure proper separation.

Reduction In Motion's Solution

Developed a brand new waste management system. Implemented easy to follow processes with minimal disruption to daily work habits. Conducted over 110 in-person educational events to introduce the greening program and to sustain the program's success.

Results

Lead to an annual savings of \$35,000.
